

KLOVE radio station is an important ministry in our area. Had I not heard the wonderful music and messages of love and forgiveness on this radio station, I may never have found Jesus. Not only that, it is one of the few stations you can let children listen to and never be worried about what they may hear. There is no cursing or slutty innuendos, it is truly G-rated and in this media-filled glitzy world it is a breath of fresh air to all who hear it! I no longer watch regular TV, only TBN and Angel as I want no more of TV's violence and polluted filth. Please don't take my breath of fresh air off the radio! Someone else is going to need to hear God's love is for them, too!

If KLOVE is displaced by a LPFM, many people who may have come to the Lord, particularly young people who enjoy music, may never hear this important message. Believe me, with so many people falling into sin and perversion and other unethical things, this station is needed to lift people up to know there is a God and he loves all of us. I deliver mail and listen in my mail truck, and many people ask what station I have on, as the music is so uplifting! Take care and may God richly bless you.
